

## REALTIME-WORKER

# Time Card and Project Management In The Cloud

### Create job lists for users to log time for simplifying and standardizing your time logs

- Track job-tasks, sub-tasks, and worked hours versus hours projected
- Allow your team to request any resources (manpower, vehicles etc.)
- Email/Print/Save as PDF project schedules for any job or individual
- Quickly look at multiple jobs or individuals' schedules to confirm if resources are appropriately allocated or if adjustments are needed.
- REALTIME-WORKER comes free with any other module purchased or you can purchase it as a standalone module.

**From PO in and out detailing, to price updating, job scheduling / manpower tracking, and so much more...**

**REALTIME-WORKER is the no-brainer choice for contractors who are ready to bid farewell to their time card troubles and delays in information being turned in, which can save thousands of dollars in payment delays.**
